QUADOA® LICENSING

Quadoa® Optical CAD is available with any combination of the following license options:

- Perpetual or subscription
- Network or single-user
- Hardkey (USB) or softkey

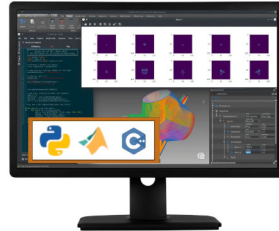

Quadoa® Optical CAD Basic

Includes Quadoa® Optical CAD plus one year of software maintenance (updates & technical support). Optionally renew maintenance on a yearly basis for perpetual licenses.

ADD-ON TOOLBOXES

Mechanics Analyzer

Enables import and export of mechanical CAD components. Imported CAD can be checked for ray interference. Supported formats are STEP, IGES and STL.

Python, MATLAB®, C++ API Interface

Access all core functions of Quadoa® using languages Python, MATLAB®, & C++. Automate repetitive tasks and integrate Quadoa® into other applications.

Wave Optics

Enables coherent beam propagation to simulate wave-optics phenomena like interference, diffraction, and free space propagation.

Dyoptr is the exclusive US-distributor of Quadoa® Optical CAD. We proved sales, support, and training services. Find more information on our website at www.dyoptr.com.
